

Arpit Shakkerwal

arpitshakkerwal@gmail.com — [Portfolio](#) — [GitHub](#) — [LinkedIn](#)

Professional Summary

Computer Science undergraduate with experience building full stack web applications using React.js, Next.js, Node.js, PostgreSQL, and REST APIs. Skilled in developing scalable software solutions, workflow automation systems and data driven applications. Strong foundation in software engineering, back-end integration, databases, and problem solving with interest in AI powered and enterprise SaaS platforms.

Technical Skills

Programming Languages: Java, JavaScript, TypeScript, Python

Frontend: React.js, Next.js, HTML5, CSS3

Backend: Node.js, Prisma ORM

Databases: PostgreSQL, MySQL, Supabase

Tools: Git, GitHub, Postman, VS Code, IntelliJ IDEA, Docker, Linux, Ansible

Concepts: REST APIs, Workflow Automation, Responsive UI, Loading/Error States, Performance Optimization, Object-Oriented Programming

Projects

SmartDesk – Intelligent Helpdesk Ticket Management System

2026

[Live Demo](#) — [GitHub Repository](#)

- Developed a full stack helpdesk platform using **Next.js**, **Node.js**, **PostgreSQL** and **Prisma ORM**.
- Designed workflow automation for ticket assignment, escalation and **SLA tracking**.
- Integrated backend APIs and database operations to streamline issue resolution processes. Built responsive dashboards for monitoring ticket lifecycle and operational metrics.

Eco-Tracking Web Application

2024

[Live Demo](#) — [GitHub Repository](#)

- Developed a carbon footprint tracking application using **React.js**, **TypeScript**, and **Supabase**.
- Implemented authentication, responsive dashboards, and **REST API integration**.
- Focused on intuitive layouts and mobile friendly user experience.

GUI-Based Ubuntu System Hardening Tool

2025

[GitHub Repository](#)

- Automated **CIS benchmark** aligned Ubuntu security configurations through a GUI application.
- Generated security audit reports and reduced manual hardening effort using **Python** and **Bash scripting**.

Hearing Impaired Rider Assistance System

2023

- Developed an IoT solution using **Raspberry Pi**, **Python**, **OpenCV**, and **sensor modules** to detect emergency sirens and provide vibration and visual alerts.

Education

Presidency University, Bengaluru

Aug 2022 – Present

Bachelor of Technology – Computer Science & Technology (DevOps) — **CGPA: 7.06**

Army Public School, PRTC

Class XII (2022) – **74%**

Class X (2020) – **83%**

Relevant Coursework

Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Networks, Object-Oriented Programming, Software Engineering

Certifications

- **CodeChef** – Data Structures and Algorithms in Java
- **CodeChef** – Problem Solving in Java I & II
- **NPTEL** – Introduction to Industry 4.0 and Industrial Internet of Things
